

2 3

*pesl* means basketball; *ligen* means court; *strisi* means room; *olta* means placement; and *ganti* means test. Because *strisi* means room, it must be present in the answer, so that rules out choice 3. Choices 1 and 2 are incorrect because *pesl* means basketball and *olta* means placement. That leaves choice 2 as the only possible answer.

2 4

A snow-capped mountain is to a crocodile as a cactus is to a starfish. This relationship shows an opposition. The crocodile does NOT belong on the mountain; the starfish does NOT belong in the desert.

2 5

Elated is the opposite of despondent; enlightened is the opposite of ignorant.

2 6

An infirmary is a place that takes care of the infirm, sick, or injured. Without patients, there is no infirmary. Surgery (choice 1) may not be required for patients. A disease (choice 2) is not necessary because the infirmary may only see patients with injuries. A receptionist (choice 4) would be helpful but not essential.
